

Position Title: Metal Fabricator - Custom Furniture

We are seeking a skilled, detail-oriented metal fabricator to join the Donut Shop team. This role is ideal for a fabricator who takes pride in precision work and is interested in continuing to develop their craft in a collaborative, well-supported shop environment. You will be guided and supported by experienced designers and fabricators, with clear processes and realistic schedules.

Job Opening

Donut Shop
892 W. Baltimore St.
Detroit, MI 48209
313.300.9234

Company Description: Donut Shop is a growing furniture focused, creative studio made up of friendly designers and fabricators working together to create detail oriented work for spaces through a communicative, approachable and reliable process. Our studio interweaves design theory and practical fabrication techniques allowing us to thoughtfully develop, meticulously plan, and skillfully craft each project.

Responsibilities:

- Fabricate custom furniture, fixtures, and lighting using ferrous and non-ferrous metals
- Collaborate with the design and fabrication team to provide fabrication input and constructability feedback during the design phase
- Produce metal components with a high degree of precision, consistency, and attention to detail
- Work closely with the wood fabrication team on hybrid metal/wood projects
- Maintain an organized, clean, and safe metal shop
- Help with on-site installations.

* This is a metal-focused role with exposure to complementary materials, primarily wood; guidance is provided, and prior woodworking experience is not required.

Requirements

- 2-5 years of professional metal fabrication experience preferred
- Proficiency with TIG and MIG welding
- Experience using a mill and lathe
- Ability to fabricate with a high level of precision and attention to detail
- Comfortable working independently while also collaborating within a team environment
- Strong understanding of furniture construction techniques, materials, and fabrication processes
- Excellent problem-solving skills and an organized approach to work
- Ability to prioritize tasks and meet deadlines in a fast-paced, custom fabrication environment
- We value strong fundamentals, attention to detail, and a willingness to learn over checking every box

Availability: 40 hours per week, in-person

*Open to discussing reduced hours for the right candidate.

Compensation: \$27-\$32 per hour

Benefits: Health insurance, PTO and paid holidays available to full time employees

To Apply: Please send your resume, portfolio, a brief statement of interest and contact information for two to three references to
